Stop Training. Drive Learning.

SilverEye Solutions

myTrailhead: The Ultimate Salesforce Learning Platform

Why do I need myTrailhead to train my Salesforce users?

myTrailhead is the only solution that allows you to deliver training directly to your users within your Sales and Service Cloud platforms. You can automatically assign and recommend content based upon user roles, business metrics and user activity, such as creating a new opportunity. No other Learning Management System (LMS) or Learning Experience Platform (LXP) comes close to providing this level of integrated functionality and value.

Why Choose SilverEye Solutions

We are myTrailhead, Salesforce and eLearning experts.

We are also the only Salesforce Consulting Partner with the expertise to educate your team on myTrailhead, guide them through content creation and automate content delivery within your Salesforce platform. It's all we do.

Learning in The Flow of Work

According to the 70-20-10 model of learning, 70% of learning occurs through job related experiences, and this is exactly where myTrailhead excels. Your Salesforce users don't have to leave the Salesforce platform to access the training they need when they need it.

Salesforce Integration

myTrailhead is built on and fully integrated with your Salesforce platform. This means that you can automatically assign content based upon any Salesforce field value or any user action.

Engaging Content

The tone and effectiveness of myTrailhead Trails and Modules are unparalleled. Utilize existing Trailhead trails and create your own gamified content to drive learning, increase engagement, increase employee satisfaction and decrease turnover.
